

RP71

MEETING STILE SEALS

A meeting stile seal (astragal) designed for plain or rebated meeting stiles of timber double doors where a centre latch bolt may be required or, where both doors are active. The unique quiet fin of the RP71 is effective in acoustic and weather applications. Two RP71 seals are installed on to the one door stile which allows space for a latch between the two seals.

The legs of the seals can be checked out to accommodate the latch bolt front plate providing a continuous seal.

Note: Minimum door thickness subject to centre latch and dimensions of morticed door bottom seals.

SPECIFICATIONS

Location

Meeting stiles of double butt hinged and centre pivot double acting doors.

Size/Length

1000mm, 2250mm, 2500mm, 2750mm, 3000mm
